

TRAINING RESOURCES

LINKEDIN LEARNING WITH LYNDA

For the first part of this lesson's activity, check with your school library and/or your local library to see if they offer a subscription to LinkedIn Learning with Lynda. If they do, figure out how to access the information free. If they do not, ask them if they have any other video learning resources available to use or if they have any suggestions for you. The majority of the time, something like this can be found in the library's Electronic Resources page.

OTHER SPECIFIC RESOURCES

Think through what would benefit you most, or benefit your staff, and find three specific resources that could help. Maybe this is a page on JEAdigitalMedia.org, maybe it's a specific channel on YouTube, maybe it's a resource section in a tool your staff already uses. .

RESOURCE #1

1. What is the resource?
2. Where can you find the resource?
3. Why do you think this resource is needed?
4. What do you like most about this resource compared to others on the same topic?

RESOURCE #2

1. What is the resource?
2. Where can you find the resource?
3. Why do you think this resource is needed?
4. What do you like most about this resource compared to others on the same topic?

RESOURCE #3

1. What is the resource?
2. Where can you find the resource?
3. Why do you think this resource is needed?
4. What do you like most about this resource compared to others on the same topic?
